

Audio & Video Entry Systems

CDI Services Supply, Install & Maintain a wide range of Audio & Video entry systems. From a basic one to one analogue system to multi flat, multi block digital systems.

Our systems are designed to provide stylish functionality, reliability, secure design and ease of use using the latest products available.

As we are not tied to a particular manufacture. **CDI Services** are able to use the following manufactures enabling us to provide a system that complements any interior or architectural style.

The Audio system is by far the most cost effective product available

Audio & Video door entry systems are versatile security products for controlling access to residential homes, blocks of flats and commercial premises. Each of the systems enables the resident to talk directly to the entrance panel and allow a guest access by releasing the door or gate.

A video handset allows the resident to view callers at the entrance panel. Both B&W and full colour imaged handsets are available.

For Multi-Block installations Porter / Concierge switchboards can be provided. These units allow the Concierge or Porter on duty to receive calls from visitors at the entrances and in turn call the apartments telephone entry handset to announce the visitor. The apartment can also call the Concierge desk.

Providing bespoke solutions for the **C**ommercial, **D**omestic and **I**ndustrial market is our speciality.

Entry panels come in a variety of models and colours enabling them to blend in with the style of any building. They can either be surfaced mounted or recessed, making it particularly suitable wherever leaving the existing structures untouched is of importance.

Many local authorities and housing associations require a durable Anti-Vandal End Station often with Access Control.

Highly innovative Special Needs products have been purposefully designed for use by disabled, infirm and elderly users

Traditional style Audio handsets and Video monitors versus sleek contemporary hands free units

With the new range of equally stylish audio and video internal units the flexibility continues with surface, desk or flush mounting options, allowing most installation requirements to be fulfilled.

With our two and four wire systems we can upgrade existing audio entry phones to full video entry systems using the existing cabling. Providing lo-cost, high functional bespoke systems, which complement your property, is our speciality.
